# ***ToxiBloc Flex*** UV Curable Flexo Ink

---

### **Features:**

Low Viscosity and Fluid Rheology  
Clearance under FDA FCN772

- Excellent Gloss
- Good Flexibility
- Fast Curing

Polymeric Imaging's new **ToxiBloc Flex** is a fast-curing, high gloss UV Curable Overprint that contains only material listed under official FDA FCN772 clearance. All materials are provided to Polymeric Imaging by RadTech Food Contact Notification Alliance members. **ToxiBloc Flex** is compatible over both water-based and UV curable inks. Recommended substrates include semi and gloss paper, board, unsupported films and foils and top-coated films.

Follow Proper Safety Procedures When Handling. This product is suitable for both direct and indirect food contact applications. Testing for extractables must be performed by converter due to different substrate and curing conditions.

For cleanup, a standard Level 3 Roll Cleaner is recommended. All cleanup rags should be disposed of properly.

*Effective 6-13-11*

Protected by - **MICROSHIELD™**  
Breaking The Lines Of Transmission
